avionics, flight and engine control systems

AFFORDABLE ELECTRONIC INSTRUMENTS FOR ALL AIRCRAFT PORTABLE EMERGENCY BACKUP GYRO SYSTEMS

eGYRO3 \$1295 AND eGYRO2

- Solid state electronic gyro microefis – displays horizon, turn rate, and slip/skid.
- Totally self contained– just connect to any dc power source (9-30 volts).
- Completely portable – velcro to panel/glareshield or mount in std instrument hole. eGYRO3 mounts in 3 1/8" hole (3.3" x 3.3" x 2"). eGYRO2 mounts in 2 1/4" hole (2.4" x 2.4" X 1.7").

Options include:

- Heading display—magnetic slaved heading gyro display (-H) \$200
- 9 volt alkaline battery backup option (2 hour run time) (-B) \$100

eGYRO-XP AND eGYRO-PCefis \$895.00

- Micro-miniature electronic gyro module – 2" wide x 1" high x 3" long 4 oz.
- Converts any pda, tablet, or notebook computer into a full efis system. Provides full 3 axis horizon/efis display capabilities. Includes data/power interface cord for iPAQ pda (eGYRO-pcefis only), software, power cord for 9-28 v electrical system and internal 9 volt alkaline emergency battery. Runs for over 5 hours even if external power is lost.
- Standard unit has RS-232 serial interface. eGYRO-pcefis is for use with pda's, eGYRO-XP is for use with pda's, tablet and notebook computers.
- Works simultaneously with all 3rd party applications including moving map, flight planning, engine monitoring, and mp3 music applications.

Options include:

- External GPS interface(-G) \$50
- Built in waas GPS(-WG) \$200
- Bluetooth wireless interface(-BT) \$250
- Mountainscope "3d synthetic vision" GPS software (eGYRO-XP only) .(-MS) \$495
- NAVgps GPS moving map runs simultaneously with eGYRO-PCefis .(-nav) \$249
- eGYRO-GC adds internal airdata and magnetometer to eGYRO-XP ..(-gc) \$600
- Provides a full adahrs w. Internal magnetometer—works with www.opengc.org
- Open source efis software—custom configure your own efis system

eMON/eDATA starting at \$150.00

- Complete color engine instrumentation display systems

ePANEL \$8995.00

- Complete instrument panel in a 10.4" super bright color display.
- Full efis display with horizon, heading, airdata, simultaneous display of all engine instruments.

EFIS5000 \$1995.00

- Complete 5" color display efis system—displays horizon, heading, altitude, airspeed, rate of climb, turn rate, slip/skid and more self contained – just connect to power, pitot and static system 4" x 6" x 3" – 15 ounces

eGYRO-CLASSIC \$495.00

- The original pocket sized emergency attitude indicator—operates over 5 hours on 9 volt battery

• All prices and specifications subject to change without notice • Made in the USA with aerospace grade micro-machined solid-state (mems) gyros/accelerometers
